

GDPT and Collaboration tools

There are many tools that can be use to streamline collaboration in our international projects. There are only a few such packahes provided by the University as GDPR compliant tools. These tools are described [here](#)

In addition the Faculty is currently in the process of acquiring a license for the [Overleaf tool](#) for writing Latex documents.

Leiden Observatory currently has a license for the [Slack tool](#)

All other tools are non-GDPR compliant.
