

Mathematica

General information about Mathematica:

- <http://reference.wolfram.com/mathematica/guide/Mathematica.html>

Campus license

The use of Mathematica by staff and students of the Leiden University has been fully financed. Home use is included. The license is paid by the Leiden Institute of Physics (LION) and use outside the LION will be charged to other institutes on the basis of usage. So before you can obtain a license (if you are a non-lion user) please confirm expense declaration with your Institute Manager and have him/her confirm the license request to the contact person below.

To acquire the actual license file/key follow the instructions below.

Students and Staff - Home Use License

Request a Mathematica Home Use license for Staff with your Leiden University email address at:
<http://www.wolfram.com/siteinfo/>

Then follow the instructions presented to you. You will have to create a Wolfram account in order to request a license. Make sure you use a .leidenuniv.nl email address. After finalizing the forms you will receive an email confirming your request, later followed by an approval email with additional information on how to obtain your license.

For more information or expense confirmation for non_LION users please contact:
