

Security

This describes the basic security measure that should be/are in place at Leiden Observatory and LION Physics Department.

Security level

Availability, Integrity and Trust liability

There are several levels of these security elements in terms of services and data. We denote the following:

Service	Availability	Integrity	Trust liability
Mail	High	High	High
Home directory	High	High	High
Web	Medium	High	High
Remote access	Medium	High	High
Scientific computing	Medium	High	High
Data	Medium	High	High

Let's detail out these services and data.

- Mail
- Home directory
- Web
- Remote Access
- Scientific computing
- Data

Security Baseline

- Organization
- Classification
- System management
- Access
- Development and maintenance
- Auditing
