

Video Conferencing

The Observatory houses three video conferencing systems of which two are available to all Sterrewacht personnel and one is specific for the METIS project.

Public Video Conferencing Units

These units can be used freely by all Sterrewachters, provided a reservation has been made through the Observatory secretariat (Oort 465).

METIS Video Conferencing unit

This unit is specifically installed for the METIS project and cannot be used by other Sterrewachters. The responsible person for this unit is Bernhard Brandl.
